SOOS
SOUTHERN OCEAN OBSERVING SYSTEM

SWEDISH POLAR RESEARCH SECRETARIAT

# SOOS–Swedish Southern Ocean Network

## *Southern Ocean Research Seminar*

The Southern Ocean Observing System (SOOS) and the Swedish Polar Research Secretariat recently partnered to develop a strong national SOOS–Swedish Southern Ocean Network of researchers, policy and industry members. This community will enhance knowledge sharing, collaborative efforts and funding opportunities, while strengthening Swedish involvement in international Southern Ocean initiatives and efforts.

**We warmly invite everyone interested in Swedish Southern Ocean Research to join us for the first SOOS–Swedish Network "Southern Ocean Research Seminar".**

This seminar is open to all disciplines and research areas — including those working in the Arctic with an Antarctic interest.

**When:** June 13, 10.00 (Breakfast from 9) to 16:30. Breakfast sandwich, lunch wrap and afternoon snack included.

**Where:** University of Gothenburg, Marine Sciences Department, Botan (Carl Skottsbergs gata 22)

**Program:** We are aiming for one session of short talks before lunch and one session after. Part of the afternoon will also be used for discussion that range in topics such as: plans for future cruises, collaboration both nationally and internationally, avenues for enhanced visibility and impact of Swedish data, and prospects for a new Swedish icebreaking research vessel. A detailed program will follow soon!

**Submission:** Please send us a short title for a 10 min presentation of your work. We will attempt as best possible to fit in as many short talks as we can during the day.

**Registration:** Train tickets will be reimbursed. Register your attendance until **May 23th** here: https://airtable.com/shrx8u0rGwLpf0JPC
